Hello! Hello! Hello!

What's that? Who's talking? What, who's talking? Yes, who? Well that's what I am trying to impress on your mind. Why, don't you know that voice? Why sure. That's Frank Dreese, the live wire on low prices out with his new spring ad. What does he sell? Why gracious me, where have you lived for the past year? I guess you are joshing me. Nearly everybody in Crawford county has read my ads, telling of the way he secures bargains at prices that seem rediculous. Read thoroughly this camplete ad. He explains it all in this. He is busy and getting more busy all the time. Saturday evenings it is impossible to get customers waited upon.

Ponder! Think! Read! Read!

Get the Habit. Go to Frank's

en's and Children's Hats

I purchased a large assortment of sample hats for men, in felts, cloth and straw. When I tell you I can sell you a hat for half price, I am able to do so, by purchasing these at a big cash discount. I can sell you a 50c hat

Men's good felt hat, worth 50c and 75c, at 38c Men's hat, worth \$1.00, for____ Remember these are in this special line and

Men's and children's hats. I have a complete line in new straws, running from 50c to a \$5.00 Panama.

Now don't go out unmindful these days of sudden changes and swelter and sweat and throw down that old hat and shoes and vow to your wife that you will not sweat like I did this forenoon, Simply be like the wise man. Go out in the morning and be pre-pared to say Mr. Weather I got you first by getting that light straw hat, light underwear and light shoes, that make life a pleasure on that hot summer day. If you prepare for your table, why not your bodily wants. Frank has the whole outfit to make you comfortable and happy. Drop in any day and Frank is wearing the smile and ready to show you bargains.

\$8,000 FOR BAKER FARM. Largest Farm Deal Recorded at Gaylord.

Last week Mike Shields purchased the Albert Baker farm a little over one mile north of here. The considration was \$8,000.

There have been many real estate deals of recent years in this county in which a number of fine farm properties have changed hands, but none of these so far as known, involved so large a sum of money as the Shields

The Junior Hop.

The annual Junior hop was held a the Temple theatre last Friday eyen ing. It was not very well attended but was one of the prettily arranged marties of the season. Clark's orchestra furnished the music and the party opened at eight-thirty o'clock with about eighty guests present. The dance hall was tastefully decorated in the class colors of yellow and blue and with green boughs, crepe paper ribbons being arranged in a lattice about the windows and stage. The electric lights were covered with yellow and blue Jack-o'-lantern shades, making the light of the hall very pretty. In one corner of the room was a booth made of green boughs, where punch was served to the guests during the evening. While the dancers whirled away to the strains of the music some of the guests enjoyed themselves with cards in the balcony, which was also nicely decorated with the class colors and Japanese lanterns.

At about 12:00 o'clock a very dainty wo course luncheon was served by the young ladies of the Freshman and Sophomore classes. Here the same color scheme as that of the dance hall was carried out, crepe paper ribbons being draped from the electric light chandeliers to the corners of the room and to each other above the tables with Jack-o'-lautern shades covering the lights. The centers of the tables were adorned with bouquets of daffodils and sweet peas and looked very pretty. The decorations were planned and arranged by members of the class and they deserve much credit for the pretty arrangement of the

Self-Defense Against Mule.

Christopher Hargraves, a Bucks county farmer, pleaded self-defense when charged with beating an "onerv mule with an ax handle and escape fine. His novel defense was entered when he was arraigned before Magis trate Tomlinson, at Langborne, on a charge of cruelty to animals.

"That mule's got a bad streak," Hargraves told the magistrate, "and when he's 'onery' he's got a kick like a 40centimeter gun. The last time I didn't have a whip handy, so I used the ax

separate coat, which becomes a sult-coat when worn with its own particular skirt, but is available for wear with various frocks, will commend itself to every woman, especially to her who contemplates a journev. Many of these coats have been designed this season, and they have been enthusiastically welcomed. They are shown in tans, grays, black and white mixtures, and in checks. In these neutral colors they go well with frocks or skirts in any color.

One of the newest and smartest of coats of this kind is shown in the picture. It is cut with almost straight lines at the front and back and trimmed in braid and buttons with a crisp military precision. At each side, a little below the waist line, there is an insert of fan plaits, giving the desired flare, and the double turnover collar, set on at the back, is another concession to demands of the vogue.

The skirt to match is plain, fitted about the hips and with a very conservative flare from hip line to bottom edge. It is a little longer than ankle length, but short enough to be correct tailored model.

In nearly all coats of this kind the fit is vague, the waist line either raised above or dropped below the normal, and only a suggestion, at most. In many of them lines are most. perfectly straight or show a gradual flare from the shoulders down.

Some of the newest Turkish towels have an initial quite four or five inches long, worked in French knots at the left of the towel, above the border, in stead of in the center, as is usually done. For a man's use towels worker with these large letters are very good looking.

Among the newest designs for small guest towels is one of a fine damask of a very small pattern without a wover border. The latter is hemstitched on and consists of an inch-wide hem of colored linen, pink or blue.

The initial may be embroidered in white on the hem or worked on the towel itself in a color to correspond with the hem.

LOOK INTO FUTURE

What of Business Conditions After the War?

Textile industries of the Country Have Been Saved From Ruin by European Conflict, But Danger is by No Means Over.

Predictions are made by what may be considered authorities that the war will end before the summer closes. Some set June for the finish and oth ers figure that September is the safest date. Then what?

The war that has sapped the best blood of Europe has saved the textile industry in this country. Our mills have had their best business from France and Belgium, and, without us, the armies of the allies would have suffered beyond endurance from lack of clothing. Nevertheless, in February nearly \$2,000,000 of worsted fabrics, over \$300,000 of woolens and \$113,000 of worsted yarns were re-ceived from England under the indus-

try-killing tariff in force.

The end of the war is nearer than the end of the industry disturbers at Washington, but for both the end is in sight, and a page in history is about to be turned that should never have been written.

Even the most radical free-trader must admit that the Wilson tariff is rank failure. Hundreds of thousands of self-respecting American workers also admit it and are eager for the opportunity to register their protest, yet no move for the relief of our indus tries has been made by the party in

When in strenuous times like the present, in England, if reports are true, her mills can send in even \$2. 500,000 worth of wool yarns and cloth in a month, what will happen when normal conditions prevail and the full force of unfair competition is felt?-Fibre and Fabric.

Running to Cover. The most interesting political spec-tacle at present in this country is that of the Democrats scurrying about, looking for some place of con-cealment in which to hide from the wrath of the voters. They are throw ing up verbal dust in every direction, seeking to cover their flight, leaving a trail that a blind man might follow. From the president down, the leaders of the party are apologizing for the mistakes made, and are trying to shift the blame for their

blunders onto the victims of their short-sighted or destructive policies. Lambasting Wall street or booing at the war god will not in any way alter the fact that the depression of business in this country began with the incoming of the present adminis-tration. President Wilson and his party set about at once, on coming power, to change the foundations of American commerce and industry and they have succeeded so well that the superstructure has been almost completely wrecked as was the un derpinning, which was removed entire ly. If any semblance of prosperity remains, it is in spite, and not because, of the activity of the Demo crats in congress.—Omaha Bee.

Confident of Victory

Harry M. Daugherty of Columbus O., former chairman of the Republi-can state committee, was in Washington on personal business, he said, and while he declined to talk politics, he found time for a political epigram. says the Star of that city. Mr. Daugh erty is one of the Republicans who believes that a Republican of the old guard surely will be elected at the next election. Said Mr. Daugherty:

"If the Democratic party is wrong on the tariff, which it always is, and on the tahm, which it always is, and right on everything else, which it pever is, yet the country would not prosper. If the Republican party is right on the tariff, which it always is and wrong on everything else, which is inconceivable, yet the country would prosper.
"This is why the people are deter-

mined to restore the Republican party

Republican for president except Taft. Perhaps he didn't say it and perhaps Professor Taft has not said that he will support any Republican candidate except Roosevelt, but it is a safe guess that he feels that way.

The papers are again demanding that Secretary Bryan stay on the job at Washington. The desire of some people to keep the president in difficulties is no less than vicious.

There's a reason for these excellent qualities in Grape-Nuts. This food is made of whole wheat and barley, thoroughly baked and processed to render it easily and quickly digestible—generally in about one hour.

Grape-Nuts contains all the rich nutriment of the grains, including the phosphorus, iron, sulphur, and other mineral elements so necessary for proper nourishment of body and nerve cells. It's a healthful food, and

FACTS ABOUT THE MORTGAGE

For One Thing, as a Tireless Worker It May Be Said to Hold the

Record. A mortgage makes a man rustle and it keeps him poor. It is a strong incentive to action, and a wholesale reminder of the fleeting months and years. It is fully as symbolical in its

meaning as the hour-glass and scythe that mean death. A mortgage represents industry, be cause it is never idle, night or day. It is like a bosom friend, because the greater the adversity the closer it sticks to a fellow. It is like a brave soldier, for it never hesitates at charges, nor fears to close in on the enemy. Use Railroads as Sleeping Places.

In some of the uncivilized parts of the world which are penetrated by common carriers, railroad tracks are said to be favorite slumbering places for many of the natives. In India women and children who are employed in unloading freight cars are not infrequently seen sleeping on a right of way with their heads ing on the rails, often making it nec essary for someone to walk ahead of a train and awaken them in order that it may page. In certain sections of China a similar condition exists and is responsible for a large percentage of the fatalities caused by railroad there. Worthy Epitaph Suggested by the Grand Secretary of Brotherhood.

"They died in performance of their duty," is the epitaph which could be placed over the graves of half of the ocomotive firemen on western railroads, according to A. W. Hawley grand secretary and treasurer of the Brotherhood of Locomotive Firemen and Enginemen. Hawley was testify ing at the western wage arbitration earing.

"The actual percentage of firemen who die in service," testified Hawley, "is 47 per cent. Fifty-seven per cent of the benefits paid by the brotherhood since 1904 were for blindness and am putation. In 1913 there were 30 amputations, of which 24 were due to smashups. In the same year there were 20 cases of blindness. Ten were the result of smashups. There were 6,250 killed and disabled in 1913."

WORKING FOR "SAFETY FIRST"

Official of Western Railroad Employs Phonograph to Impress the Mexican Employees.

In furtherance of the "safety first" principle, the Atchison, Topeka & San-ta Fe Railroad company has equipped its safety commissioner, Isaiah Hale, with a seven-passenger automobile so fitted with removable tires as to permit of the machine being run on the standard-gage track of the system. With him in the automobile Mr. Hale carries a phonograph and he operates the car over those stretches of the road in the far Southwest where great numbers of the Mexican section hands, track laborers and other employees are regaled with a program of phonographic selections. In this the Spanish tango and Mexican song records predominate. Thus the swarthy men from across the frontier are pre talk" in Spanish-the Spanish of the border—which closes the impromptu "concert." This consists of a graphic recital of the disaster which must attend the taking of chances on and about the company's lines and proper tv. Whenever he finds that the Mexican "boys" have a phonograph in their bunk cars, Mr. Hale leaves a set of "tango" and song records, which is sure to include one of the "safetytalks."-Scientific American.

Twelve-Cylinder Cars Coming. Although no definite announcements have been made as yet, and probably will not be made for a few weeks, it is well known that several makers

contemplate bringing out a 12-cylinder model next year. The significant hint was given at an automobile dealers' dinner recently, in which it was stated-that "if the public demanded a 12-cylinder car" this company was prepared to furnish it. The flexibility obtained with a many-cylindered motor is an inducement to many motorists to put up with many of its drawbacks and complexities. tinues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for womenand every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

Providence, R. I.—"For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. RIGHMOND, 84 Progress Avenue, Providence, R.I.

From Mrs. Maria Irwin, Peru, N.Y.

Peru, N.Y.—"Before I took Lydia E. Pinkham's Vegetable Compound I was very irregular and had much pain. I had lost three children, and felt worn out all the time. This splendid medicine helped me as nothing else had done, and I am thankful every day that I took it."—Mrs. Maria Irwin, R.F.D. 1, Peru, N.Y.

From Mrs. Jane D. Duncan, W. Quincy, Mass.

SOUTH QUINOY, Mass.—"The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. Jane D. Dunoan, Forest Avenue, West Quincy, Mass.
